Key themes which have shaped and influenced our commissioning intents and priorities

Our shared ambition: Our People

Our shared ambition to support people through good customer care is demonstrated through the following 'I' statements:

- I have access to a range of support that enables me to live the life I want and remain a contributing member of my community.
- My parents/carers say they feel supported and enabled to have a good quality of life.
- I have the information, and am enabled to use it, that I need to make decisions and choices about my care and support.
- Taken together, my care and support help me live the life I want to the best of my ability.
- I am as actively involved in discussions and decisions about my care, support and treatment as I want to be.
- When I move between services or care settings, there is a plan in place for what happens next.

These **COMMISSIONING INTENTS** articulate the areas of focus that the Integrated Adults Partnership will **'SHINE A LIGHT'** on for partnership action and system change to contribute to our adult population being **SAFE, WELL, PROSPEROUS** and **CONNECTED**
