

NORTH LINCOLNSHIRE COUNCIL

HEALTH & WELLBEING BOARD

INTEGRATION STATEMENT FOR NORTH LINCOLNSHIRE

1. OBJECT AND KEY POINTS IN THIS REPORT

- 1.1 To reinforce through the Health and Wellbeing Board our collective commitment to integration.
- 1.2 To represent the refreshed Integration Statement promoting integrated working.
- 1.3 The board agreed and first published an Integration Statement for North Lincolnshire in December 2013.
- 1.4 One of the statutory functions of the board is to encourage and promote integration between health and care agencies.

2. BACKGROUND INFORMATION

- 2.1. The board first agreed and published the North Lincolnshire Integration Statement in December 2013 (Appendix 1). This was followed by the publication of the Integration Suite of Documents. This sets out the conditions for successful integration focussing on:

- A common language
- Common knowledge and skill set
- Information and data sharing
- Single Organisational Model
- Risk Principles
- Lead Professionals
- Shared Performance Framework
- Joint Commissioning
- Collaboration and Engagement
- Culture Tool
- Equality and Diversity statement

- 2.2. A great deal of work was undertaken to progress integrating services.
- 2.3. There have been a number of changes in the Clinical Commissioning leadership and together we have agreed to refresh our shared commitment to integration.
- 2.4. The Better Care Fund plan is the basis for the current integration plan and following this renewed commitment a new integration plan will be agreed and brought back to the board for consideration.

3. OPTIONS FOR CONSIDERATION

- 3.1. Agree a revision of the Integration Statement.
- 3.2. Promote the existing Integration Suite of Documents across board members.

4. ANALYSIS OF OPTIONS

- 4.1. The revision of the Integration Statement reflects current priorities and joint working across the partnership and enables newer members of the board and the workforce to understand the commitment from the Health and Wellbeing Board to integration and integrated ways of working.
- 4.2. The need to further integrate services supports the NHS transformation journey at a place level. The recent Sustainability and Transformation Plan for the Humber, Coast and Vale area states that, for 'place-based' areas such as North Lincolnshire, integration is key to achieving the desired outcomes of the sustainable transformation Plan.
- 4.3. The Better Care Fund has integration as a national condition and the local development of Care Networks with primary care through integrated care services has replaced the term accountable care partnership which support integrated ways of working.

5. RESOURCE IMPLICATIONS (FINANCIAL, STAFFING, PROPERTY, IT)

- 5.1. No implications.

6. OUTCOMES OF INTEGRATED IMPACTASSESSMENT (IF APPLICABLE)

- 6.1. Not applicable

7. OUTCOMES OF CONSULTATION AND CONFLICTS OF INTERESTS DECLARED

7.2. None

8. RECOMMENDATIONS

8.1 That the Board agree the revised Integration Statement and promote the Integration Suite of Documents within their organisations.

Appendix 1 – North Lincolnshire Health and Wellbeing Board Integration Statement 2018/21

Background Papers used in the preparation of this report:

North Lincolnshire
Health and Wellbeing Board

Our Commitment to Integration
2018 to 2021

PREFACE

The Health and Wellbeing Board is responsible for the Joint Strategic Needs Assessment, the Joint Health and Wellbeing Strategy, to encourage joint commissioning and ***to encourage and promote integration across partners to improve health and wellbeing outcomes and to reduce inequality.***

There is a history of integrated working across partners in North Lincolnshire and there are examples of good practice already in place. Further progress has been made since the inception of the Health and Wellbeing Board in April 2013 and this document outlines partners' strategic commitment to 'whole system integration' and provides the basis on which to further develop across the health and wellbeing workforce.

INTEGRATION STATEMENT

DEFINITION

When organisations work together to achieve a common goal.

AMBITION- To have the best health and care services in North Lincolnshire and for the residents to be Safe Well Prosperous and Connected.

To deliver; 'The Right Service, at the Right Time, in the Right Place, with the Right leadership'

Our collective goals are to transform services so that:

- people have help to look after themselves and be more independent
- people play a part in their community
- people have a choice and can get services when they need them
- we can improve how services are bought to provide good value for money

We are in agreement that by transforming and changing together, we will be able to take our organisations in a new direction and to a different level of effectiveness. Integration is central to this.

HOW

Locally we have agreed that the 'Single Organisational Model' provides the basis on which services can be organised (appendix 1). Using this model services will integrate:

- across all levels in organisations
- based on need
- across the whole area or smaller areas

This will apply to services provided by all organisations for people of all ages.

**NORTH
LINCOLNSHIRE BOARD**
HEALTH AND WELLBEING
Integrated Working
For Better Outcomes

WHAT

We are working towards ‘whole system integration’ though between 2017 and 2020, our focus will be on:

- development of Integrated Care Service
- enhancing the leadership in the care networks
- improving health inequalities
- developing a single form of accessing services

PRINCIPLES

We will work together to ensure:

- people are enabled to be self-managing.
- high quality information, advice and guidance
- needs are identified early and support is offered as soon as possible
- services are right for people’s needs and delivered in the right place
- the focus is on people and families to work with them to make decisions and plan solutions that are right for them
- all plans focus on people’s outcomes
- the lived experience is used to shape and improve services
- people are involved in the planning and delivery of services at all levels.

CULTURE AND APPROACH

We are committed to promoting, nurturing and creating a culture where:

- we help people and families to help themselves
- we work together to improve outcomes and reduce inequalities for the people of North Lincolnshire and deliver against our priorities
- there is a common purpose and direction and everyone is working towards the same goals
- all staff take responsibility for their own work
- staff are empowered to work differently and to do the right thing
- we manage risks as early as possible
- we are well led, well managed and well supported
- elected decision makers are supportive and involved
- we allow others to check that we are carrying out our duties properly
- we plan, buy and pay for services to make them better for service users while providing value for money

NORTH BOARD
LINCOLNSHIRE
HEALTH AND WELLBEING
Integrated Working
For Better Outcomes

CONDITIONS FOR SUCCESS

To make integration work, we will have:

- a common language
- common knowledge and skill set
- arrangements for information and data sharing (in line with Caldicott principles)
- the single organisational model
- commitment to managing risks as early as possible
- identified lead professionals
- shared performance monitoring that is based on outcomes
- joint processes for monitoring finances, buying services and organising our money

OUTCOMES

As a result of integration, we expect that:

- children, young people, vulnerable adults, families and carers are **safe well prosperous and connected**
- all people have improved health and wellbeing outcomes
- people can help themselves by building on their strengths
- people have a choice, stay independent and can access support as soon as possible
- people get the right care and support as early as possible
- solutions are designed with people and their needs are met
- there is better value for money and lower costs
- money, staff and skills are used in the best possible way

ENDORSEMENT

Approved by Health and Wellbeing Board Members on 10 December 2013
Revised March 2014 and March 2015 Reviewed March 2017
Reviewed and represented March 2018
