| <b>2. OFFICER DECISION<br/>TAKER</b>  | <p><b>NAME</b>                    Becky McIntyre</p> <p><b>POSITION/POST</b> Director of Governance and Partnerships.</p> <p style="text-align: center;"></p> <p><b>SIGNATURE</b></p> <p><b>DATE</b>                    25 January 2019</p>   |
| <b>3. REASONS FOR<br/>THE DECISION</b><br>(Please ref to any report/minute/background documents attached) | <p>The 2018-19 Treasury Management Strategy (approved March 2018) sets out the Authority's Borrowing Strategy as follows:-</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Maintain an under-borrowed position overall</li> <li><input type="checkbox"/> Undertake smaller, more regular borrowing transactions</li> <li><input type="checkbox"/> Aim to balance long-term cost and short-term cost of carry</li> <li><input type="checkbox"/> To borrow for shorter periods if cash flow requires or to defer long term borrowing for a period</li> </ul> <p>The Authority currently has an in-year borrowing requirement and wishes to defer more expensive long-term borrowing whilst still ensuring sustainable liquidity levels are maintained.</p> <p>Up to a total of £15million will be required to be taken over varying periods of up to 12 months by any available route permitted by the Treasury Management Strategy:</p> <p>Up to a total of £10million will further be required to be taken over varying periods of up to 50 years by any available route permitted by the Treasury Management Strategy:</p> |
| <b>4. ALTERNATIVE<br/>OPTIONS CONSIDERED<br/>AND REJECTED (BY<br/>DECISION TAKER(S))</b>                  | <p>Public Works Loan Board (PWLB) has historically been the default option for such borrowing but in recent years the Local Authority market has developed to offer a lower cost alternative for sub-5 year terms. This is because PWLB's rates are set using the market price for the equivalent UK Government Gilt issue plus a margin of 0.8-1%.</p> <p>This margin has allowed a liquid market to develop between UK public</p>   |

|  | <p>sector bodies whereby a borrower can obtain funds for periods of less than one year and at rates lower than PWLB and the lender is able to receive better than commercial deposit rates for quasi-UK Government risk.</p> <p>Borrowing for a spread of periods less than 1 year provides the Authority with some flexibility to alter borrowing levels should spend plans alter (typically by allowing shorter loans to mature without replacement).</p> <p>For the reasons above, loans from the public sector marketplace are preferred to longer-term PWLB on this occasion.</p> <p>Other (commercial banks, pension fund) lenders exist and are keen to lend to UK Local Governments. However, whilst these lenders typically undercut PWLB rates they currently only offer long term solutions and come with significant lead-in times, which don't fit NLC's immediate need.</p> <p>The Authority's current Liability Benchmark also indicates a sizeable borrowing requirement over the next few years to fund planned Capital Programme spend and Reserve drawdowns although management of this need will again be structured through future Borrowing Decisions. This transaction is solely to meet immediate cash flow need.</p> |
